

Scalability & Future Plan

Date	15 March 2024
Team ID	XXXXXX
Project Name	Smart Lender
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited number of simultaneous users	System may slow down under heavy traffic	High
2	Local database storage	Difficult to handle large datasets	Medium
3	Basic loan prediction model	Accuracy can be improved with more data	High

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users	Deploy on cloud with load balancing
2	Data Storage	Local database	Migrate to scalable cloud database (MySQL/PostgreSQL)
3	Performance	Basic flask application	Optimize APIs, add caching, and improve response time
4	Security	Basic authentication	Implement JWT authentication, data encryption, and role-based access

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 2	Loan eligible dashboard and analytics	August 2026	Better user insights
Phase 3	Mobile application and multilingual support	September 2026	Increased accessibility
Phase 4	AI chatbot and real time bank integration	October 2026	Improved user experience and automation
